PROFESSIONAL SUMMARY

Data Analyst Fresher with an MCA (CGPA: 8.1/10) and hands-on experience in Python, SQL, Power BI, Excel, Data Cleaning, Exploratory Data Analysis (EDA), Machine Learning. Completed a 3-month Data Analyst Internship at Unified Mentor Pvt. Ltd., where I analyzed real-world datasets, created interactive dashboards, and generated business insights. Built end-to-end analytics projects involving, KPI reporting, and data visualization. Passionate about transforming raw data into actionable insights to support business decision-making.

TECHNICAL SKILLS

Programming & Query Languages: Python, SQL.

Data Analysis: Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA), Statistical Analysis, Data Validation.

Data Visualization: Power BI, Excel, Plotly, Streamlit, Matplotlib, Seaborn

Databases: MySQL, SQLite, MongoDB

Tools: Git, GitHub, Jupyter Notebook, VS Code, FastAPI, Flask

INTERNSHIP EXPERIENCE

Data Analyst Intern

Feb 2026 – May 2026

Unified Mentor Pvt. Ltd.

Technologies: Python, SQL, Excel, Power BI, Pandas

- Cleaned and transformed large datasets by handling missing values, duplicate records, inconsistent formats, and outliers using Python.
- Performed Exploratory Data Analysis (EDA) to identify trends, patterns, and key business insights.
- Created interactive Power BI dashboards with KPIs, charts, slicers, and filters for performance monitoring.
- Wrote SQL queries to retrieve, join, filter, and summarize business data.
- Automated reporting workflows, reducing manual reporting effort.
- Collaborated with mentors to convert raw business data into decision-ready dashboards.

PROJECTS

❖ Factory Reallocation & Shipping Optimization System

Technologies: Python | SQL | Pandas | NumPy | Scikit-learn | Power BI | Streamlit | Plotly

- Built a tool that predicts how long a shipment will take to arrive, based on the product, factory, region, and shipping method used.
- Created a "what-if" simulator showing how shipping time and cost would change if an order were reassigned to a different factory.
- Built an interactive dashboard so anyone, not just data analysts, can explore shipping delays and factory performance visually.

Skills Used: Machine Learning, Power BI, Data Cleaning, SQL, Data Visualization, Business Analytics

❖ Case Management Analytics Dashboard

Technologies: Python | SQL | Power BI | Streamlit | Plotly | Pandas

- Developed an interactive dashboard to monitor case lifecycle, track workflow progress, and analyze operational performance.
- Cleaned and transformed case data using Python and Pandas for accurate reporting and analysis.
- Created KPIs including Total Cases, Resolution Rate, Pending Cases, Average Resolution Time, and High-Priority Case Tracking.
- Built Power BI and Streamlit dashboards with interactive charts, filters, and trend analysis for real-time business insights.

Skills Used: Power BI, Dashboard Design, Data Visualization, SQL, Business Analytics

EDUCATION

Master of Computer Applications (MCA)

2024 – 2026

Atria Institute of Technology, Bengaluru | CGPA: 8.1/10

Bachelor of Computer Applications (BCA)

2021 – 2024

Sharnbasava University, Kalaburagi | CGPA: 8.2/10

CERTIFICATIONS

- Data Analytics Job Simulation – Deloitte Australia (Forage)
- Power BI for Data Analytics
- Python for Data Analysis
- Business Analytics with Microsoft Excel

SOFT SKILLS

Analytical Thinking | Problem Solving | Communication | Team Collaboration | Critical Thinking | Adaptability | Time Management | Attention to Detail
